

REF 618 Large Country House to Reform #618

€50,000

Large Country House to reform. A unique opportunity to purchase a ruin of an old farmhouse, with all paperwork in place. With the right imagination you could turn this ruin into a beautiful character property with ample space to install a pool. The footprint of the current ruin is made up of lots of different areas that used to house livestock. There is a lot of scope to make this into a great home. The property also comes with a small plot of land across the road which could be used for parking. It is on the edge of the village of La Pinilla which has bars, restaurants, a bank and a post office. The property has views out over to open countryside towards the mountains. This area is surrounded by lovely countryside and mountain views and the almond blossoms at the beginning of the year is beautiful. It is just 5 minutes drive to Las Palas and a further 5 minutes to the main town of Fuente Alamo. The beaches of Mazarron can be reached in half an hour.

1188 m²
